

Carbon Reduction Plan

Supplier name: Anywhere Group Limited

Publication date: 1st April 2026

Commitment to achieving Net Zero

Anywhere Group Limited (parent company of Anywhere Sim Limited and Anywhere Care Limited) is committed to achieving Net Zero emissions by 2050. The commitment to achieving net zero by 2050 by Anywhere Group Limited as set out in this Carbon Reduction Plan is supported and adopted by Anywhere Sim Limited and Anywhere Care Limited.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2022	
Additional Details relating to the Baseline Emissions calculations.	
Anywhere Group are a primarily service focused business and most products sold are not manufactured in house, therefore scope 3 emissions are significantly larger than the combined scope 1 and 2 emissions. Anywhere Group chose 2022 as a baseline year for emissions in line with the organisation moving headquarters to a premises owned by the company, from a rented office space in 2021.	
Anywhere Group operates from a premises powered by an electric boiler and therefore has no on-site combustion to contribute to Scope 1 emissions.	
Baseline year emissions: 2022	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	0.0
Scope 2	3.9
Scope 3 (Included Sources)	12.1

Total Emissions	16.02
------------------------	--------------

Current Emissions Reporting

Reporting Year: 2025	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0.0
Scope 2	3.3
Scope 3 (Included Sources)	7.8
Total Emissions	11.05

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction target.

We project that carbon emissions will decrease over the next five years to 8.5 tCO₂e by 2030. This is a reduction of 23.1%.

Progress against this target can be seen in the graph below:

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

Since the baseline reporting period of 2022 the overall carbon emissions have decreased by a total of 4.97 tCO₂e representing an decrease of 31%. This represents a significant decrease beyond what the organisation had projected at for 2025. This is a direct result of the work the Anywhere Group has undertaken to reduce it's carbon footprint across the group. The organisation has conducted the below activities since the baseline year of 2022 to reduce it's carbon emissions:

- Reducing business travel by implementing over the air device configuration.
- Reducing business travel by implementing effective remote training.
- Reducing business travel by implementing effective online contextual user guides.
- Continuing remote working to minimise employee commuting.
- Increased solar power generating capacity by 100% to 16kWh.
- Incentivised employees to replace their personal vehicles with electric using salary sacrifice schemes and install EV charger at offices.

In the future we hope to implement further measures such as:

- Implement a cycle to work scheme for employees providing secure cycle parking facilities.
- Furnish meeting rooms with video conference calling facilities to encourage remote meetings reducing business travel emissions.

- Encourage staff to use national rail for business travel where possible as opposed to flights and car travel.

Declaration and Sign Off

This UK Carbon Reduction Plan has been completed in accordance with PPN006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and use the appropriate UK Government emission conversion factors for GHG company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of Anywhere Group Limited:

.....

Matthew Wright
